## APIS Solutions™

Air Routing International® is proud to provide your flight department APIS Solutions, a seamless solution that takes the time and hassle out of meeting your APIS requirements.

**Are you and your staff familiar with all of the data requirements for private aircraft APIS?**

**Do you have staff available to transmit APIS whenever the need arises, day or night?**

**Do you have the time to perform the tedious, time-consuming data entry required of the CBP eAPIS web site each and every time?**

Air Routing International's expert staff can guide you through the APIS process, identify and store the necessary information for each APIS transaction 24 hours a day, seven days a week, to meet your APIS needs.
