FOR IMMEDIATE RELEASE

First Aviation Services Welcomes Air Routing Card[™] Customers

Teterboro Based FBO Offers Modern Facilities and Strategic Location to Air Routing International's Domestic and International Clientele

Houston, TX. April 2009. First Aviation Services (FAS), located at Teterboro Airport (TEB), has recently been added to the roster of world class FBOs that provide aviation services, via the Air Routing Card[™] to Air Routing International's (ARI) domestic and international customers.

In addition to being under new ownership and management, FAS now provides ARI customers with a modern and contemporary \$63 million newly constructed full-service FBO. The ultra-modern facility was engineered to provide customers efficiency, security and comfort. FAS has included an on-site fuel farm and 24-hour Pt. 145 maintenance, housed within a 40,000 + square foot hangar.

"It is such a privilege to add such a high-quality facility to serve the needs of our customers", says Deborah Highsmith, Air Routing's Domestic Fuel Manager. "We look forward to a long-term relationship that ultimately benefits our valued customers."

About First Aviation Services (FAS):

First Aviation Services has been a fixed-based operation at the Teterboro Airport since 1986. Recently, FAS's long-time owners undertook a three-year effort to secure permits and environmental remediation to build today's private, spacious, ultra-secure 24-acre facility with 225,000 square feet of interior space, now located on the south side of the airport. www.firstaviationteb.com

About Air Routing International (ARI)

Air Routing International is a worldwide leader in superior corporate flight handling and trip support. For the past 30 years, ARI has continued to guide corporate flight planners and pilots through the challenges of domestic and international air travel, providing exceptional services ranging from international permits and route planning to weather reports and refueling. www.airrouting.com

Air Routing is a worldwide leader in superior international trip support and corporate flight handling.
